GC Plans To Build Its Own Incinerator

Sewage Plant Filter Changes Recommended By Project Engineer

Granite City may decide to build its own trash-garbage incinerator to meet the state's air pollution abatement order rather than pay a monthly fee to Madison, the aldermen proposed Tuesday night.

Council members also referred to the Special Pollution Abatement committee several sewage treatment plant filter change orders similar to those proposed months ago by industrial engineers and rejected by the city.

Tuesday's session was filled with debates over which committee had what responsibilities and whether the committees actually existed. The meeting was held Tuesday instead of Monday because of the Washington's birthday holiday for the city.

Cost Figures Sought

Council members decided to contact several incinerator manufacturing firms to conduct surveys without charge and let them submit cost figures to the city.

The city had been considering a joint incinerator operation with Madison and Venice, financed by the city of Madison, with Granite City and Venice paying monthly fees. Madison Mayor Macras had recommended a $3000 survey with Granite City to pay $3830, Madison, $655, and Venice $515.

Alderwoman Betinec proposed the no charge survey for all three cities, saying she had made contact with a manufacturer who would perform on that basis. Proposals from several firms are to be obtained and submitted to the council for a Granite City operation. Council members noted the city has a site (the dump) and also has a sales tax reserve.

Committee Challenges

Mrs. Betinec's report as Sanitation committee chairman was challenged by the council, but Mayor Davis pointed out that the appointment stood for 30 days despite council rejection. Moerlien said the incinerator study should be handled by the Special Air Pollution committee.

The alderwoman in turn challenged the status of the Special Pollution Abatement committee headed by Moerlien, saying it no longer was in existence. Mayor Davis added that he was disbanding the committee "as of now" but changed his mind when Moerlien pointed out it had been named by resolution to function until the sewage treatment plant is completed.

Change orders for the Komline-Sanderson filters for the sewage treatment plant, costing an additional $3374, were submitted to the council by the engineering firm of Sheppard, Morgan & Schwaab. Moerlien noted the changes called for 316 stainless steel construction of the filter decks and heads and for fiberglass protection for the filter tanks and agitators as had been recommended several months ago by industrial engineers.

Calls for Study

"These are the changes the committee sought to get by bid from two filter manufacturers and we would like to study it further before any action is taken by the council," Moerlien added.

When Alderwoman Betinec commented they were minor, Moerlien said, "These are the changes you termed as major when the committee was waiting to get bids and the council turned down its recommendation."

Also referred to the committee was a notice from the state Sanitary Water Board of its approval of an extension of the sanitary sewer system for Lueders Park Estates Addition 5.

The session started with 13 aldermen present. Absent were Rutledge, Skubish and Boyd. Departing before the session ended were Barancik, Betinec, Moerlien, Dallas and Nonn.

State to Set Hearing On Area Dump Issue

Clarence W. Klassen, chief sanitary engineer of the Illinois Department of Public Health, said today that he will schedule soon a pre-hearing conference with operators of three private dumps and officials of Venice, Madison and Granite City in an attempt to settle an issue of compliance with an order to stop burning at the six dumps operated off Interstate 55-70.

The cities and the private operators were ordered to discontinue burning by Feb. 20. The cities have not complied because of the shortness of time, and Klassen said he had received no communications from cities, although the private operators had informed him of plans to convert to sanitary landfills.

He said that if arrangements for compliance with the order cannot be worked out, the Air Pollution board will set a date and issue complaints for a formal hearing in which action against the operators of the dumps, including the three cities, can be taken.

GC Hopes to Hit Nameoki rd. R-O-W Deadline Monday

Negotiations for right-of-way needed for the Nameoki road widening project "are proceeding more than satisfactorily", Anthony Gasparovic III, said today. He said records on the exact number of transactions completed to date were unavailable this morning as City Atty. George Filcoff was in court. Filcoff and Gasparovic have been in charge of negotiating the purchase of 40 tracts of right-of-way needed for the road improvement job.

Last week a total of 26 tracts had been purchased and Gasparovic said negotiations were under way with owners of the other 23 parcels. At least four, and possibly more, of the 23 remaining tracts will be placed under condemnation, Gasparovic said. State highway and Granite City officials and civic representatives recently set a deadline date of March 1 next Monday for completion of right-of-way negotiations.

Gasparovic said all property owners were notified of the deadline several weeks ago and that some are discussing offers by telephone and are expected to make a decision before the March 1 deadline. He said the biggest majority of tracts are expected to be cleared before next week's deadline.

Need Exercise? Steal a Shovel

A thief apparently was anxious to get some extra exercise, according to a report made to the Granite City police station at 3:40 p.m. Wednesday.

William Barnhart, 2949 East 25th street, reported that a snow shovel was stolen from near his back door.

Nine candidates filed for eight school board positions in the Quad-Cities as filing periods opened yesterday. Deadline is March 20 for the April 10 election.

Two incumbents filed for the two Madison posts, one incumbent filed in Venice and as yet only non-members have filed in the Granite City district.

Those filing in Madison for new three-year terms were Oel M. Blumenstock, 1687 Market street, and Frank L. Derner, 901 Washington avenue. No other petitions have been requested at the board office.

Venice school candidates filing Wednesday were Roy Musick, 600 Lincoln avenue, an incumbent board member, Leo Davinroy, 1229 Klein street, a former board member, and Elmer Taylor, 201 Kerr street.

Venice Retirements

Board Members Lester Salem and Eugene Elgan have indicated they may retire when their current terms end. Salem formerly was president of the board for many years.

In Granite City, the terms of President Daniel Linder, Robert Spengler and Ralph Buske expire.

Linder is one of 14 with petitions; the other two incumbents announced this winter that they will not seek re-election. At least one rural and up to two urban seats are to be decided.

Granite City Filings

Petitions were filed at the Granite City school office Wednesday by Lloyd B. Presley, Rural Route One, rural; his brother, Eugene "Gene" Presley, 2725 Buxton avenue, urban; Royce C. Timmons, 530 Margaret avenue, Mitchell, rural; and Richard Foy, 2344 Gary avenue, Gorbe subdivision, rural.

Those issued petitions who have not filed are Linder, 3109 Myrtle avenue, an urban candidate; Pete Schermer, 2623 Delmar avenue, urban; Frank Mehelic, Rural Route One, rural; and George E. Moore sr., 1029 St. Clair avenue, urban.

Six sets of Granite City petitions have been taken by individuals who said the petitions were to be used by other persons.

Four Hubcaps Stolen

Philip McGovern, 2518 East 27th street, reported at 6:35 a.m. today that four hubcaps were stolen from his 1964 auto while it was parked during the night in front of his home. A rear tire also was slashed.

BIGGEST SNOWPILES in the area were along Fehling road. Some were six feet high as street department crews worked during the night and early today to clear the drifts. Parked at the drift is the station wagon of St. Supt. Warfield. The snowfall was measured at four inches.

Burglars Loot Madison TV Shop; Take 6 Sets, Cash

The Sterling TV Shop, 420 Madison avenue, Madison, was broken into last night or early today by burglars who loaded six TV sets into an auto and took an undetermined quantity of cash from a register. The operators, Robert Beckette and Ray Edwards, told police that several radios also may have been taken but that an inventory would have to be made to determine the full extent of the loss.

The break-in was discovered shortly after 4 a.m. by Donald White, a paper carrier, who called police. Officers said a brick had been thrown through a large window 28 inches by seven feet and that imprints from wet shoes were found inside the building. Blood was found on the floor, indicating one of the men may have been cut. Tire marks in the snow showed the burglars had backed a car to the door to load the TV sets. Estimate of the loss was not immediately available.

Theft at Restaurant

Paul Hollis, proprietor of the Red Barn restaurant, 3030 Madison avenue, reported that $28 had been taken from a petty cash box before 5 p.m. Monday.

Three burglaries occurred in the downtown Granite City business district Monday night, including two in the Fleishman building, 19th street and Delmar avenue, and one at Lill's Grill, 1923 State street.

At the Granite City Collection Service in the Fleishman building, $27.90 was taken from collection envelopes on a desk. The desk drawers were ransacked. Entry was gained by breaking a door glass.

A door glass at the tailor shop of Fleishman's Men's store also was broken to gain entry, but nothing was missing, and a pay bar was used to enter a vacant office, all on the second floor of the building. The reports were

Recognition Tea Honors Volunteers at Hospital

(Related Story on Page 30)

The fourth annual recognition tea for hospital volunteers, sponsored by St. Elizabeth Hospital Auxiliary, was held last night in the hospital cafeteria.

Sister Jerome of the obstetrical department was in charge of the affair, assisted by Mrs. Freda Leaton.

The guest speaker was Dr. Robert Hill, president of the Tri-City Medical Society, who was introduced by Sister Mary Thomas, hospital administrator. Dr. Hill spoke on the valuable assistance provided by volunteer personnel and expressed the appreciation of the medical staff.

Mrs. Irene Argelan, auxiliary president, thanked the volunteers for their co-operation during the past year. Pins and bars were presented by Sister Mary Thomas. Mrs. Marieta Daniels, head of nursing service, assisted Sister Jerome at a capping ceremony for 17 Candy Stripers.

Volunteer Pink Ladies and male adult volunteers were credited with 9100 service hours and 1231 hours donated to outside activities pertaining to auxiliary work. The Candy Stripers donated a total of 11,871 hours in service.

Together, the volunteers amassed a total of 22,202 hours since Feb. 15, 1964, a gain of 3442 hours over the previous year. The hours of service given recognition totaled over 30,000.

The tea followed with approximately 80 present.

Water Co. Laborer 100th Strike Day

The contract strike by 16 laborers employed by East St. Louis & Interurban Water Co. is entering its 100th day, and no meeting has been called for this week by the U.S. Mediation Service.

Officials of Laborers Local 397 and the utility are expecting to be notified later this week by Bernard O'Keefe of the U.S. Mediation office for a session for next week. He has met with the representatives twice with no progress reported.

The laborers contract expired Aug. 31, and wage increases and fringe benefits are being sought by the union. No details have been divulged by either side. The strike has delayed about 50 Quad-Cityans from moving into new homes and has curtailed occupancy at 48 apartment units.

Park Board Joins GC Master Plan

Commissioners of the Granite City park district last night authorized $300 for the district's participation in Granite City's master growth plan.

Atty. Randall Robertson said the district must be part of a master plan to be eligible for federal recreation funds. He said no funds are available at this time, but may be in the near future.

He also said the board's request for federal aid in building the proposed ice rink in Wilson Park was denied. The board is currently working with a citizens' committee on possible means of financing the rink.

The board also voted to sell a 10-foot wide strip along Pontoon Road in Rode Park to the state for widening of the roadway and decided to request a simple liability insurance policy from E. J. Miller Co., which estimated an annual premium of about $3000 after making a study. A recent Illinois Supreme Court decision has made the district liable for torts for the first time.

Approval was given for recreation director Harold Brown and playgrounds director Mrs. Helen Bjorkman to attend the Great Lakes Conference, emphasizing crafts, March 28-31 in Indianapolis. Brown said the annual Winter Carnival will be held March 11 at Granite City high school and that the downstate regional meeting of the Illinois Association of Park Districts will be held here May 22.

Lower Sewer Fees for GC Schools Proposed

Lower sewer rental fees for public and parochial schools on the Nameoki sanitary system and a fee schedule for apartment houses were proposed by the Special Pollution committee to Granite City council members Tuesday night.

Action on the school fee resolution was deferred on requests by Mrs. Betinec and Nonn, and rental fee for large apartment houses went on first reading.

For schools, the $40-to-$60 monthly charge would be cut to $6 a month for schools with less than 300 pupils, $9 for those with 300 to 600 and $12 for schools with over 600 pupils. The proposal has been under study for months at the request of both public and parochial school officials, Comptroller John Dooher told the council the reduction would not slow the bond retirement.

Committee Chairman Moerlien said the proposed fees for apartment units would go entirely to the city for paying off the revenue bonds. He pointed out that under the program for sewer extensions to new subdivisions, the city has been receiving only 85 cents of the $2.50 monthly charge per home, because of an agreement to reimburse the developer who installs the trunk lines.

The charge for an apartment would be $1.25-a-month, while the connection fee would be $45 for an apartment house with four units and an added charge of $5 for each additional unit.

"We have no provisions for apartment houses in the sewer service ordinance, and many apartments are being planned," Moerlien told the council.

Stop the Stop Signs—Quad-Cities Safety Council Requests

The stop sign menace was outlined in detail to Granite City aldermen in a letter read Tuesday night from the Quad-Cities Safety Council calling for elimination of unnecessary stops and better control over new installations.

Pointing out that stop signs are being placed to slow traffic rather than to control major intersections, the Safety Council noted that motorists begin to ignore the unnecessary. signs.

Kenneth Whittington, safety supervisor for Granite City Steel Co. and vice-president of the Quad-Cities Safety Council, sent the letter also to the cities of Madison and Venice, and the Safety Council suggests a joint effort by the three cities to hire a traffic safety engineer or seek expert advice for all future stop sign installations.

The letter was referred to the Police committee and police department, and the aldermen later placed on first reading an ordinance for stop signs on Oakland avenue at Braden avenue, and accepted a request for an ordinance to place stops on Nevada avenue at Rock road.

Safety Council members noted a safety hazard is developing in the area through the indiscriminate use of new stop signs which are being placed in large quantities as devices to slow down traffic rather than to control intersections, the Safety Council noted that motorists begin to ignore the unnecessary. signs.

"Such misuse must inevitably cause even the most considerate motorist to begin to ignore such stop signs and thus become improperly educated to the extent that he will partially ignore all stop signs.

"Politically Motivated"

"The Safety Council recognizes that these new stop signs are difficult to consider objectively, as many are politically motivated in terms of being demanded by the aldermen's constituents and that the vote trading on such issues removes the control of normal ordinance selection process . . . and there is no gauge for aldermen to properly judge the merit of such requests."

Recognizing the same condition exists in other cities, the Safety Council pointed out that some are taking steps to review all traffic control devices, and that in Belleville 16 stop signs are about to be removed.

"The Safety Council earnestly requests," Whittington said, "that you take steps to similarly alleviate the stop sign problem in the Quad-Cities. The Safety Council recommends that our three cities jointly employ a traffic safety engineer or make an appeal to the Automobile Club for assistance in studying the existing stop signs."

Further, it is requested that you consider the passage of an ordinance requiring that all future stop sign requests be approved by either a committee made up of representatives of our three police departments or a public group such as the Quad-Cities Safety Council."

Safety Council members noted the misuse of stop signs in the community has a fendency to choke off the normal flow of traffic and increase the safety hazard as motorists take short cuts to avoid the signs.

"Our community is growing rapidly and will experience severe problems with this growth unless proper planning is carried out on all levels. Such groups as the City Plan Commission, Southwestern Illinois Municipal Area Plan Commission and the East-West Gateway Planning committee can handle much of this planning responsibility to our mutual advantage. However, their efforts should not be thwarted in the area of traffic and highway planning by the current indiscriminate use of stop signs.

"What is now a growing traffic safety hazard in our community can in the future become a stifling effect on proper development."

Census Being Used to Help Pick Mitchell Area Campus

A report on possible sites for a new elementary school in the Mitchell or Mitchell-Nameoki areas will be received by the Granite City school board during a monthly "committee reports" meeting at 7:30 tonight. The board also meets in the second week of each month for a business session.

The site committee is headed by Mitchell Principal Harold G. Briggs and includes four other principals — Edward Biznek of Stallings, Mrs. Eva Meier of Logan, Donald Kopp of Nameoki and Owen Humphrey of Maryville grade school.

The group carried out a house-to-house census in certain areas, including Mitchell, Maryville and Nameoki, and projected probable enrollments for the next five years. Available sites also were studied and rated.

The committee will disband following purchase of a tract by the school board. The sum of $30,000 was provided for this purpose when voters approved a bond issue last May.

Testing, Evaluation

Also scheduled to be heard is the testing and evaluation committee headed by Vasil Eftimoff, Prather junior high school counselor.

Following meetings with SWIU and state education department consultants, the committee selected a four-point program including evaluation of the present testing program, use of the local staff, cooperation and coordination in testing and evaluation from kindergarten through the twelfth grade, and testing research.

Questionnaires were sent to all schools on the effectiveness of present testing, and a list of tests now used was compiled. Third and fourth graders at four schools and all sixth graders were given the Cattell Fair Culture test. New and revised tests were reviewed with testing material companies.

Goals are to substantiate whether test data is accurate and is used properly; to use test results for evaluation of pupils in regard to readiness ability, achievement and aptitude; and to develop a testing program combining efficiency, effectiveness and economy. Overall objective is to "know our product—the student."

Snow Drifts Cleared Early For Traffic

Accidents Increase; Schools, Industries On Normal Schedules

Snow drifts ranging from two to four feet resulting from high winds blowing the area's four-inch snowfall kept street department crews busy throughout the night and this morning to open streets and roads in the Quad-Cities for morning traffic.

The snow failed to close local schools, and local industrial plants reported only minor cases of employees being absent or tardy. The snowfall, which began early yesterday morning, accounted for 20 accidents and five injuries, police reported.

Granite City street department workers began at 10 o'clock last night to operate a grader and two highlifts to clear drifting snow.

Vehicles Stalled

Three and four-foot drifts stalled vehicles last night in the southbound lane of Madison avenue at the high school and at the north curve along Fehling road, it was reported by Street Supt. Warfield. Other large drifts were along State street at Wilson Park, St. Clair avenue and Maryville road.

In Madison, street crews plowed through drifts along State street, and in Venice, skidding trucks stalled traffic on the Broadway viaduct until salt was spread. Biggest heap was at the State street cutoff.

Schools reported slight increases in absent pupils. In Granite City, due to the flu and weather, 2096 pupils were absent along with 41 teachers. These figures were nearly triple the normal numbers. The absentees were closer to normal at Madison and Venice schools.

Driver Injured

Mrs. Norma Logsdon, 25, of Collinsville, was injured when her car was struck from behind by one driven by Bill Ren of the 18th street garage at 7:45 a.m. Wednesday at 23rd and Monroe streets while she was waiting to make a right turn onto Monroe. She was treated for a pain in the cervicle area, was x-rayed and released.

A three-car collision occurred at 12:05 p.m. at St. Clair and Myrtle avenue as one driven by James J. McQuaide, 2869 Iowa street, headed south on Myrtle, slid into the right front of another driven by Carl B. Foster, 3017 Sunbury avenue, who then slid into the left side of the auto of Ronald J. Veizer, 2737 Willow avenue, who was headed east on St. Clair.

Observes Sign, Hit

As Sam Avedisian was observing a stop sign at 3:10 p.m. on Iowa avenue at 25th street, his car was struck from behind by the auto driven by Julian B. Wallace, 3220 Wayne avenue.

Ransom Webb, 2035 Sixth street, Madison, was observing a stop sign at 21st and Monroe Streets at 8:30 a.m. when the brakes locked on a car driven by Kurt J. Perz, 1645 Primrose avenue, causing it to slide into the rear of the Webb auto.

Robert S. Moore, 29, of St. Louis, was injured when his car collided with a National Lead Co. truck driven by Emmet O. Wright, 2240 Benton street, at 3:50 p.m. at 16th street and Delmar avenue. Moore was thrown against the windshield, complained of dizziness and was x-rayed and treated at St. Elizabeth Hospital. Both vehicles slid on ice.

Car, Truck Collide

A car driven by Johanna Atchison King, 2705 (rear) Denver street, collided with a Commercial Motor Service truck driven by Bob Lee Fruits, Belleville, at 4:25 p.m. at West 23rd street and Missouri avenue. The left side of the car and the left front of the truck were damaged.

Jeanette Brave, 26, of Highland, a passenger in a car driven by Ronald E. Hutchings, 2224 Grand avenue, and Betty Mathenia, 38, of 1641 Spring avenue, were injured as the Mathenia auto slowed for traffic and was sigack from behind by Hutchings at 11:25 p.m. on Nameoki road at Jill avenue. Miss Brave was treated for facial abrasions. The other woman complained of pains.

Highway Accident

Mrs. Grace M. Beaudoin, 52, of Wilbraham, Mass., was injured when a car driven by Bernard L. Beaudoin, Wilbraham, was struc from behind while observing a stop sign by another driven by Benny Zimring, 1832 State street, at 8:45 a.m. today at By-

Don't Forget Your Feathered Friends

Area bird lovers are once again reminding Quad-Cityans to look after their feathered friends during the current period of snow.

One East Granite resident said yesterday she had over 100 birds in her yard at one time—sylbins, sparrows, starlings, a cardinal and a blue jay—pecking at her feeder.

"We shouldn't forget them at a time like this," she stressed.

Boilermaker Vote On New Contract Being Held Today

Production of auto frames is being halted between noon and 6 p.m. today at the A. O. Smith Corp. plant to permit 1700-to-1800 members of Boilermakers Local 575 to vote on a three-year contract proposal.

A meeting of the union membership is being held at the Labor Temple, presided over by Union President Carl Archer, who said a tentative agreement has been reached with company officials after 47 negotiating sessions that began before the Dec. 31 expiration of the old three-year contract. He declined to give any further details in advance of today's 1 p.m. meeting.

The proposal is to be outlined for the members by Archer and members of the union negotiating committee — Evo Magnani,

Nameoki Twp. Ballot Protest Hearing Today

A Nameoki township electoral board meeting has been scheduled for 1:30 p.m. today at the Madison county courthouse in Edwardsville. Topic will be a protest filed by Maurice "Dan" McGrew, 3120 Harvard, State Park, against listing the Citizens Economic Party heading on the April 6 ballot above the names of three CTEP town board candidates, Edison Phelps, Keith Hart and Matthew "Mike" Ropac.

McGrew asks that they be shown as independents because only the first of four petition pages had the heading. The candidates say each page had the heading when circulated, and that the pages were stapled together and filed in book form rather than as separate sheets. Each page also listed the name of the party at the bottom, and all signatures were notarized, the three allege.

House Okays Fund For Port Rental

A bill providing an appropriation of $12,800 for payment of lease rental on a tract of land acquired by the Tri-City Regional Port Authority 18 months ago was approved by the Illinois House at Springfield Tuesday.

Commander John Barron, port district manager, said the appropriation is supplemental to the district's customary appropriation because the land was acquired after the last session of the legislature was held. The rental is paid to the U.S. Army Engineer District from which the land was leased on a 50-year basis.

The Port Authority has been receiving an annual appropriation of $74,000, of which $34,000 is for land rental. Barron said Wednesday, however, that due to operations of several clients in the port the district is anticipating only one more appropriation by the state before the district becomes self-supporting and can pay its own rental and operational costs.

GCAARC Studies Legislation, Outlines Summer Program

Legislative bills to be introduced in the state assembly, one to create mandatory testing of infants for a condition known as PKU, or phenylketonuria, and the second to provide educational programs for educable retarded children in each Illinois school district, were outlined Monday night by Mrs. Georgia Cocagne, during a meeting of the Granite City Association For Aid to Retarded Children.

Mrs. Cocagne explained the first of the proposed bills which would require PKU testing of all infants. She said several states already have passed laws requiring hospitals to administer tests as part of normal hospital procedure.

PKU tests can detect oversecretion in the blood of an amino acid phenylalanine which is present in a certain type of severe mental retardation. Once this condition is detected, the amount of phenylalnine can be controled by altering the infant's diet and retardation is prevented in most cases.

Types of Tests

Mrs. Cocagne went on to say that one method of testing currently in use is a diaper test with chemicals, which is performed when the infant is two weeks old and requires the parents to briefly return to the hospital with the child. This test, she said, is the one proposed in the bill before the house budgeting committee.

Another test, called the Guthrie test, involves only a small puncture of the heel and collecting a few drops of blood on a piece of filter paper. The blood samples are then incubated in spores of organism and if an increase of growth is observed it can indicate an excess of PKU.

Many of the secular hospitals in the area have started to use the Guthrie test which is regarded as a major breakthrough in the field of preventing mental retardation, Mrs. Cocagne reported. However, she said, the test is not yet administered as routine procedure in most hospitals.

Tests Given Locally

The PKU blood test is given, however, on an automatic basis at St. Elizabeth Hospital, one of 17 hospitals in Illinois which does so. Sister Mary Thomas, reports originally PKU "diaper" testing kits were distributed to parents of new-born infants at a nominal charge.

This method was replaced two years ago with the blood testing program when the local hospital became a pilot hospital in an experimental program administered by the Illinois Department of Public Health. Testing equipment is provided by the state, Sister Mary Thomas said, and samples are sent for evaluation to public health laboratories.

No charge is made to the parents, she said, many of whom are unaware that the infants are tested. Permission is not required from the parents, Sister Mary Thomas explained as all staff doctors approve of the blood testing program. The policy was established locally, the administrator reports, due largely to the efforts of Dr. B. B. Berman, local pediatrician. In the programs two-year history, not one case involving a PKU condition has been detected at St. Elizabeth, she added.

The second bill, Mrs. Cocagne pointed out, would require each Illinois school district to provide facilities and educational programs for retarded children who reside in the district.

Day Camp Plans

In other business Monday night, Mrs. Nelma Black reported the annual summer day camp will be conducted by the association at Wilson Park June 14 to 25. A coordinator for the summer activity program is now being sought by the group, she said.

Eugene Tondre announced that Richard Jones, a Bi-State Transportation Co., part-time employee, has been hired to drive the new bus. He also discussed safety rules for children riding the bus which recently was purchased by the association.

Mrs. Evelyn Gavin presided at the meeting and announced that March has been designated as membership month, with all parents and interested persons especially invited to attend the next session on March 22, at St. John United Church of Christ.

City Deciding on April 6th Polling Places

Granite City council members indicated Tuesday night they would use their own discretion in designating polling places and election judges for the city voting precincts and let the county worry about the township polls and judges for the township election also on April 6.

Complaints were voiced that because of conflicts in city and township precinct boundaries that the same buildings could not be used for city-township polling places except in a few locations.

The aldermen now are submitting polling place and judge lists to A. L. Stevens, city and township clerk. The city was advised by State's Atty. Joseph Bartylak that regular township polling places must be used on April 6. This will mark the first time that voters must be registered to be eligible to vote in a township election. Registration is not required for voting a city candidate ballot.

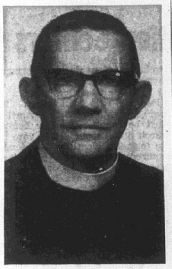

Easement Cost Rejected

In other action Tuesday night, the council referred to the city attorney an offer to grant a sewer easement across one of 10 lots for payment of $750 by the city. The easement is needed for any emergency work in the Aubrey-Davis avenue area. The council said it would not spend $7500 for 10 easements.

Also referred to the attorney was an offer by the state to pay the city $26,700 for property and the portion of the police shooting range building on the right-of-way for the Riverfront Roadway. Council members said the $13,700 allocated for the building was not adequate.

Placed on file was a letter from C. of C. President Carl Mather requesting city enforcement of anti-litter laws in the business district. Permission was given Hope Lutheran Church to erect church signs at Wabash avenue and Johnson road and at Johnson and Nameoki roads.

Also placed on file was a letter from Mitchell Public Water District offering the city rental of its fire hydrants in the event a fire district is established to serve areas outside its. The district has hydrants in the Bellemoor area.

Venice Seeks Advancement to GC Regional

Venice's Red Devils, playing in the state's smallest district basketball tournament, need win only one game to advance to next week's regional at Granite City.

The Illinois High School Association has assigned only three teams to the local district scheduled tonight and tomorrow in the Venice gymnasium. Brooklyn Lovejoy meets Alton Marquette at 7 tonight in the first game. The winner meets Venice at 8 p.m. tomorrow for the championship.

Last year, with five schools competing, Marquette won the Venice district by defeating Lincoln of Venice 87-69. This year, the pairings exclude Lincoln, which has merged with Venice high, and Western Military Academy of Alton, which has decided not to enter because of a new rule passed by the IHSA.

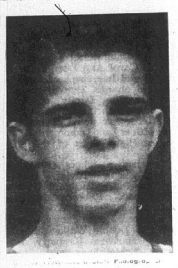

The rule prohibits boarding schools using out-of-state students in a state championship series during their first year at such institutions. Rather than enter the tournaments without the "transfer students," as the IHSA classifies them, WMA withdrew. The Red Raiders finished their regular season winless in 20 contests.

Venice is Favorite

Carrying an outstanding 19-4 record, Venice ranks as the district favorite. Marquette's Explorers (11-12) are favored to defeat Lovejoy's Wildcats (4-11) in tonight's opener. Just last Friday, Marquette whipped Lovejoy 90-58 behind 23 points by Dave Eckhouse and 22 by Gordon Beeler. Roland and Cornell Bailey, a pair of 5-9 guards, hit 19 and 17 points for Lovejoy.

Coach Bill Ohlendorf's Devils, co-champions of the MCM Conference, have averaged 73.8 points in their 23 games to an average of 69.7 by opposing teams.

KEY PLAYERS in Venice's basketball success this season have included sophomores Rich Essington (left) and Denny Hill. Essington was a standout last season while the unheralded Hill worked his way into the Devils' lineup early in the season. They typify the youth of the Venice roster, which includes no seniors.

Two ex-Lincoln players, juniors Percy Dillon and Rich Jackson, are the leading scorers with 19.7 and 16.6 averages, respectively. Sophomore Rich Essington, the top scorer in Venice's 1963-64 campaign, has concentrated on playmaking this season and with great success. And, while accumulating an amazing number of assists, he has still popped in 13.7 points a game.

Backing up the team's big three are steady performers Howard Black, averaging 8.5 points, and Denny Hill, 5.3 points. At one point in the season, the Devils won seven consecutive games, including the championship contests in the MCM and Highland St. Paul tournaments.

Height-wise, the Devils have the advantage over Lovejoy but rank about even with Marquette's regulars.

Regional Opens Monday

The regional meet at Granite City high school opens Monday with favored Collinsville meeting Roxana at 7 p.m. and Alton playing the Venice district victor at 8:30 p.m. On Tuesday, Wood River tackles Madison at 7 p.m. and Edwardsville takes on Granite City at 8:30 p.m. Tickets are on sale at GCHS.

Monday's winners meet at 8 p.m. Wednesday and Tuesday's winners play at 8 p.m. Thursday. The two finalists play at 8 p.m. Friday, with the champion moving on to the Wood River sectional, along with champs at the Cahokia, Carrollton and Staunton regionals. The Wood River winner moves to the first round of the "Sweet Sixteen," facing the Olney sectional champ at Olney's East Richland high school.

The Collinsville Kahoks (20-2) will test their state tournament potential tomorrow night at Quincy, Illinois' 12th-ranked team. The Kahoks are listed at No. 8 with Thornton of Harvey and Pekin standing 1-2.

Maxvill Eyes 2B Job

Dal Off to Camp. . . . A-Wondering

Dal Maxvill is driving to St. Petersburg, Fla., today—uncertain of his 1965 role with the world champion St. Louis Cardinals.

The Granite Cityan, who turned 26 a week ago, will get an early start under the Florida sun. The Redbird camp opens officially next week.

Maxvill, who rebounded from a demotion to the minor leagues to become the regular second baseman in the World Series against the New York Yankees, hopes to receive consideration as first-string second-sacker this season.

"I wish I knew what they (the Cardinal brass) have in mind for me," he told the Granite City Rotary club at a luncheon meeting Tuesday. "If I knew, I could prepare myself mentally for it. Once they make up their minds, they're pretty hard to change."

In his 2½ seasons with the Redbirds, Maxvill has been a utility infielder with only rare starting opportunities. He made the World Series lineup only because Julian Javier was sidelined with a hip injury.

Maxvill's 1965 standing is made more uncertain due to the Cards' managerial change. Red Schoendienst for Johnny Keane. The Old Redhead, a former keystone sparkler himself, will be weighing Maxvill's extraordinary fielding ability and batting potential against Javier's experience-proven abilities.

"I Can Hit"

"I think—and probably everybody thinks this—that if I can play regularly I can hit," he told the Rotarians. Maxvill is saddled with the "good-field, nd-hit" tag although he has yet to get a regular crack at major league pitching. In the past, he has posted good minor league averages—.348 with Tulsa in 1962 and .283 with Indianapolis last summer.

Maxvill and new general manager Bob Howsam had no discussion on the subject during contract negotiations last week.

Rotarians were also treated to some baseball yarns during the Tuesday session. Maxvill described this encounter with second base umpire Vinnie Smith just prior to the seventh World Series game:

"Are you nervous?" asked the man in blue.

"No, not too much," said Maxvill.

"Well, you shouldn't be," winked Smith. "This is just like any other game—except there's a million bucks riding on it."

Maxvile said he was in shock for three innings.

The "Sinker" Sank

Does ex-Cardinal Lew Burdette really throw the spitball as accused? Maxvill said he was catching the vet righthander in the bullpen one day in Chicago when a "sinker" sank suddenly and caught Dal's knee.

"I hobbled over to the bench, rubbing my knee, and I noticed my pant-leg was wet," said Maxvill. "I asked Lew about it and, naturally he didn't know if it could be. He suggested I might have 'water on the knee.'"

Looking ahead to the pennant race, Maxvill said he thinks the Cards can win again but figures strong competition to come from five other teams—notably Milwaukee due to a wealth of heavy hitters.

Although he wants a stab at the second base job, Maxvill said he still prefers the more familiar shortstop position. "The throw at second base is much easier because you have more time. The pivot at second, however, is much more difficult."

In other business, the club marked the 60th anniversary of Rotary International — formed Feb. 23, 1905 in Chicago by lawyer Paul Harris. A pre-recorded portion of the speech delivered Tuesday in Chicago by Rotary President Charles W. Pettengill was heard.

The club also approved expenses of $150 to enable high school student Diane Kenney to take advantage of a Heart Fund scholarship, good for eight weeks this summer at the University of Illinois.

ROTARY MEMBERS Ray Willaredt (center) and Glenn Abenroth (right) extend good wishes to the St. Louis Cardinals' Dal Maxvill, who left today for spring training. Maxvill spoke at Tuesday's Rotary meeting. Police Chief Willaredt was program chairman, and Abenroth is club president.

Sanford-Brown to Play Before Wheelchair Game

Sanford-Brown College meets Blackburn College of Carlinville, Ill., in the first game of a basketball doubleheader at 7 p.m. Saturday at Concordia Fieldhouse, St. Louis. The feature game matches two wheelchair teams, the St. Louis Paraplegic Rams and the University of Illinois alumni.

Sanford downed the St. Louis College of Pharmacy 89-70 Monday night to clinch at least a tie for the Greater St. Louis College Conference championship. Bob Simpson and Carl Wortham of Granite City scored 34 and 19 points respectively and Venice's Calvin Dixon scored six. Sanford finished with a 9-1 league record.

Quad-Cityans Named To Chouteau Squad

Six Quad-City boys have been named to the all-Chouteau Valley Conference grade school basketball team.

Schedules Will End For Tribe, Trojans

Basketball teams at Granite City and Madison high schools end their regular schedules this weekend.

The Belleville Maroons bring their 16-7 record to Madison tomorrow night. The Trojans, 11-11, will be shooting for an upset of the Southwestern Conference team to guarantee at least a .500 final record.

Granite City's Warriors will host the Shelbyville Rams Saturday night. The Warriors upped their record to 7-17 Tuesday night with a 72-67 triumph over the visiting Cahokia Comanches.

Four GCHS cagers hit in double figures, the second time that's happened this season. Terry Moore and Vince Debeve each scored 19, Larry Ripka had 17 and Joe Groboski 12.

Cahokia's Dave Wild was very nearly the Warriors' downfall. He scored 31 points as he hit 17 of 20 free shots granted by the heavy-fouling Tribe. Coach Andy Sullivan described the 6-5 ace as "the best outside shooter I've seen in the area this season."

The Comanches kept it close, 33-35 at the half and 48-47 their way in the third quarter. But the Warriors built up a 10-point lead going into the final 1:30.

Granite City made 27 of 58 field goal shots (46%) and the leaders were the hottest. Moore hit eight of 13, Ripka six of 10, Debeve six of 12 and Groboski five of nine. Cahokia made 50% but shot only 37 times.

Cahokia won the junior varsity game 52-40. High for Granite City were Forrest Swan with 13 and Bob Malottki with 12.

GRANITE CITY 72, CAHOKIA 67

Individual scoring:

Granite City — Moore 19, Debeve 19, Ripka 17, Groboski 12, Kamberlain 2, Worthom 2, O'Neill 1, Lybarger 0, Swan 0, Range 0, Malottki 0, Hoy 0.

Cahokia — Wild 31, Hillyard 12, Fabing 9, Corlett 6, Tapley 3, Marshall 3, Gobble 3.

Old Mat Rivals Start Even at State

Granite City 7, Waukegan 7

Granite City and defending champion Waukegan will have seven wrestlers each in the Illinois High School Association's state tournament tomorrow and Saturday at Champaign.

The even arrangement makes GCHS the strongest threat to Waukegan's bid for an unprecedented third consecutive championship. In nine years of rivalry, the Warriors have been unable to beat the Bulldogs.

Other schools who figure to make a strong showing include Champaign with five wrestlers and Reavis of Oak Lawn, with four. Other schools sending four each are Edwardsville, Dixon and Lockport Central, and Senger, Tilden and Vocational, all of Chicago.

The IHSA announced a record total of 94 schools, extending from East St. Louis in the south to Fox Lake in the north, has qualified one or more wrestlers for the tourney. The 192 entrants will wrestle a total of 240 bouts.

Two individual 1964 champions are back—Bob Shines, Waukegan, at 112 pounds, and Steve Welter, Fox Lake, who won at 133 last year but has advanced to 138 this season. Two runners-up return — Don Joseph (103) of New Trier and Ron Oglesby (95) of Oak Lawn Community.

Coach Bill "Red" Schmitt and Granite City team members left at noon today. The tournament opens at 1 p.m. tomorrow at Huff Gymnasium at the University of Illinois. Quarterfinals are slated for 7 p.m. tomorrow. Saturday's schedule includes the semifinals at 11 a.m., and the consolations and championships at 5 p.m.

Seek First Title

The Warriors are seeking the first state championship for this downstate wrestling stronghold. Highest finish was second place in 1957. Granite City was fourth in 1940, 1945 and 1963.

GCHS entries are Bill Fuchs (95 pounds), Steve Cavanaugh (112), Rich Bledsoe (120), Rich Grizzard (133), Jim "Buddy" Valicoff (138), Gary Forshee (180) and John Evenden (heavyweight). All but Grizzard, who was runner-up, won championships at the Wood River sectional.

All local entrants have outstanding won-lost records this season, with Bledsoe unbeaten in 27 outings. Other records: Fuchs 28-1, Cavanaugh 29-1-1, Evenden 30-3, Forshee 29-3, Grizzard 29-3-1 and Valicoff 25-5-1.

Granite City hasn't had an individual state champion since George Nemeth, who won at 95 pounds in 1957 and 103 pounds in 1958. There have been three runners-up since—Ernie Taylor (103) in 1961, Buddy Felchlin (133) in 1962 and Bledsoe at 103 two years ago.

18th Straight Trip

This is the 18th consecutive state tournament trip for Schmitt, who made 14 previously for Granite City and three for Western Military Academy. He'll have to go some, however, to catch Belleville's Wally Rauth, who has made the trip 26 times in the 28 years of the state tourneys. This year, Rauth is staying home for the second time.

The state's foremost wrestling historian and record-keeper, Schmitt revealed that Granite City stands sixth among all teams in state tournament competition since the present scoring was started in 1936. Waukegan is first with 330 points.

Next are Proviso 248, Reavis 229, Thornton 189, New Trier 166, Granite City 153, Blue Island 147, Oak Lawn 144, Pekin 141 and Evanston 136.

In the 27 previous state tourneys, 20 titles have been won by suburban Chicago teams, two by Chicago teams and only five by downstate teams — Champaign in 1941-48-49 and Rock Island in 1947-56. Proviso has won eight championships.

Only Granite City, Proviso and Champaign have had competitors in all 28 state tournaments. The Warriors failed to score only once, 1950. Their highest total, 41, in 1957, set a record for most points by a state runner-up.

Women's Relays Set for June 26

A large-scale relays meet for girls and women is being inaugurated in this area by the Edwardsville Jaycees and the Ozark AAU. The first event is scheduled for June 26 in Edwardsville.

"This truly unique meet should, in the coming years, become one of the nation's top attractions from the point of view of both the athletes and the spectators," said Bob Hyten jr., meet director.

Special permission has been granted by the United States AAU to hold a group of relay events not ordinarily included on meet programs. Events include: 200 yards for ages 10-11; 440 yards for ages 12-13; 880 yards for ages 12-13; 440, 880, mile, 880 medley, mile medley and 280-yard shuttle hurdles for age 14 and over. There will also be a special 100-yard dash for selected athletes and three field events—broad jump, high jump and four-kilo shot put.

Hyten said one innovation will be the opportunity for participants to meet and mingle as they ordinarily cannot do. All entrants and coaches will be given free lodging and free meals and enjoy entertainment after the meet.

The sponsoring groups hope to attract outstanding female athletes from across the nation as well as from the local area.

Widow, 69, Hurt In $20 Robbery, Youth, 17, Charged

One youth was charged with robbery and two others were referred to juvenile authorities in the reported strongarm robbery of a West Granite widow Monday night.

The victim was Mrs. Dora Testor, 69, of 2221 Ohio avenue, who answered a knock on the door and then was confronted by three persons who used strong-arm tactics in obtaining $20. Mrs. Testor was admitted to St. Elizabeth Hospital.

She was shaken and was treated for a badly bruised hand and a cut to her right leg. She was reported to be in fair condition and visitation was limited to members of the family. A brother who lives with her said she was alone at the time as he was at work on the 3 to 11 p.m. shift and did not return until after the robbery.

Pleading innocent to the robbery charge after giving a statement to police was Stephen Underwood, 17, of 135 Kinder lane, who was initially taken into custody on a curfew violation early Tuesday morning. The youth, who pleaded guilty and was fined $10 on the curfew charge, was released on $2500 property bond set by Magistrate Gasparovic pending a preliminary hearing next Wednesday.

One juvenile implicated in the case was referred to the Madison county probation officer and may be dispatched to the state reform school, while the other was referred to Coordinated Youth Services.

Huge Pressure Vessel Goes Through Here

The largest pressure vessel ever shipped by the Babcock & Wilcox Co., Barberton, Ohio, boiler works, and one of the largest ever shipped across country, passed through Madison and Granite City Tuesday. The 320-ton ISOMAX reactor is the first of eight such units for Standard Oil Co. of California. Officials said some subsequent shipments will be even heavier.

Contract for the eight high-pressure reactor vessels amounts to approximately $8 million and is believed to be the largest single order ever placed with a U. S. firm for the fabrication of such equipment. The 104-foot vessel is being transported on its 3500 mile journey on specially built railroad cars. Five railroads are coordinating the shipment which took 14 months of planning and preparation of cars.

The cars entered Granite City Wednesday on a Norfolk & Western Train for transfer to the St. Louis & Southwestern railroad. It arrived here at 11:30 a.m. and taken to St. Louis, via East St. Louis.

Police Still Seek Clues in Murder of GC Cab Driver

Lester Lee Manley, 39, St. Louis taxicab driver of 1816 Spruce street, Granite City, was killed by a .25 caliber bullet, according to police ballistic tests made after Manley's body was found slumped under the wheel of his cab in St. Louis, Sunday. Other clues and a motive are still sought.

Results of the tests ruled out the possibility that a .22 caliber pistol found by police at a downtown hotel might have been the murder weapon. Manley apparently had been dead several hours when his body was found. Police said robbery apparently was not the motive. There was $15 in the victim's shirt pocket and three $1 bills on the floor of the cab, although Manley was said to have carried large sums of money frequently.

A company supervisor for the Yellow Cab Co. reported that Manley had been seen Friday when he stopped at the cab headquarters for gasoline. Manley owned his own cab, found his own passengers and seldom accepted company assignments, the supervisor said.

A transistor tape recorder about the size of a package of cigarets was found under the front seat, but police said the tapes were scratchy and revealed very little.

Manley had lived in Granite City about three years, moving here from East St. Louis. He was born in Norphsect, Ark. He was a world war II Navy veteran and belonged to the Transportation Service & Allied Workers Union.

He is survived by his wife, Veronica, a stepdaughter, Mrs. Pat Price of Granite City; two stepsons, Peter G. Kraus and David Kraus, both of Granite City; a sister, Mrs. Kenneth (Mary) Knott, of Hazelwood, Mo.; four brothers, William H. Manley of Belleville, Leonard Leon Manley of Chicago; Cecil Manley of Milwaukee and Raymond Manley of Kansas City, Mo., and three grandchildren.

Funeral arrangements are given in today's obituary column.

23rd St. Drainage Job Fails to Get Council Approval

Only 10 aldermen were present shortly before 10 p.m. Tuesday when Granite City council members failed to give sufficient vote to a motion to seek bids for a drainage line construction to serve 23rd street and Cleveland blvd. The meeting had started with 13 aldermen present.

The project, estimated to cost $50,000, is to be resubmitted next week, it was indicated by Third Ward Alderman Bergfield. The work also is to include removal of old trolley tracks on 23rd street from State street west to Adams street and along a portion of Adams street for installation of a larger drainage line.

Several aldermen voted against the proposal for full financing with city tax funds, pointing out that motor fuel tax funds should be used for the track removal and a portion of the drainage line cost.

Even those opposed to financing the project entirely from sales tax funds agreed the project is needed and recognize that the city did receive a $30,000 settlement from Illinois Terminal Railroad for track removal and has spent about $7000 to buy street department equipment.

Heart Fund Drive Gifts Expected To Top '64 Total

Residents of the Quad-Cities opened their hearts wide to Heart Sunday volunteers this week. Midweek tabulations today showed that last year's donations may be exceeded this year.

About $2500 has been received. Madison and Venice contributions have not been counted and some other areas in the Quad-Cities also have not been tallied.

Alex Duccini, Heart Sunday chairman, expects the current drive to exceed that of 1964 by several hundred dollars. Some contributions are being mailed in by families not at home when the volunteers called.

Duccini said contributions will be used to support programs of heart research, public and professional education, and community service—aimed at reducing death and disability from heart and circulatory diseases, now responsible for more than 54% of all deaths in the nation.

The annual District Eight "Toastmasters Speech Contest," to be hosted by the Granite City Toastmasters' Club, will be held March 30 at the Niedringhaus Memorial Methodist Church, with plans for the affair being made at a dinner meeting held Monday evening in the Grand Cafe. Earl Lee was in charge of the business session, which precluded the usual program.

Dr. Leo M. Coleman and Dr. Claude Hiles, contest co-chairmen, discussed the program and dinner to which the public is being invited. It was announced that several guests from the Collinsville and East St. Louis clubs will attend next Monday's meeting to assist with the programming.

Other clubs which are expected to participate in the annual contest include Highland, Greenville, Alton, Collinsville, East Alton and East St. Louis.

Services will be held nightly at 7:30 from Sunday, Feb. 28, through Sunday, March 7, at Calvary Baptist Church, 30th street and Washington avenue, by Rev. Howard "Todd" Taylor, pastor of the church of the same name in Alton.

The evangelist has spoken throughout the U. S. and, at the invitation of the Home Mission Board, conducted five evangelistic campaigns abroad, recently returning from a successful Jamaica meeting. His church in Alton has added 1445 members in his seven and a half years there, and it will occupy a $1 million 1500-capacity sanctuary April 18.

Rev. Dr. Wilbert V. Snider, host pastor, said vocal soloist will be Rev. Taylor's son, Steve Taylor, an SWIU sophomore. Music will be led by Raford Raby, minister of music at the Alton church.

CUB PACK 122 HOLDS BLUE AND GOLD BANQUET

Cub Pack 122 of Wilson school held the annual blue and gold banquet Monday evening at the school.

The evening combined an awards ceremony and the 55th birthday celebration of scouting. Prayer was offered by Mrs. Phyllis Mezo. A buffet supper was enjoyed by the guests, Mr. and Mrs. Bertram Ahrens Mr. and Mrs. Jack Melson, Mr. and Mrs. B. J. Rodgers and Mr. and Mrs. Gene Buzan, along with the cubs and their families.

After supper, Melson presented registration cards to Gene Buzan, Joseph Moutria, Bertram Ahrens, Donald McKinney, Albert Barnes, John Mezo, Carl Stinson and the den mothers, Mrs. Shirley French and Mrs. Ioan McKinney.

B. J. Rodgers addressed the group on the scouting program, how it started and important events through the years.

A birthday cake centered the speaker's table, alight with 12 candles. Each candle represented a boy who received his wolf badge. As Buzan presented the awards, the boys blew out their candle.

Awards were made to James Legate, Richard Ripley, Terry Barnes, Mike Mezo, Mike Stinson, Donal and Timothy McKinney of Den One; and Rodney French, Richard Connally, James and Gary Garner, Scott Taff, Alan Davenport of Den Two.

The tables were decorated with blue and gold floral centerpieces flanked with yellow candles in crystal candelabra. Yellow placecards with dark blue napkins and corsages adorned each place setting of the ladies present.

Cubmaster Joseph Moutria and his wife presented Mrs. French and Mrs. McKinney with yellow and blue carnation corsages.

On display were the achievements each boy had done to earn his wolf award.

Moutria announced that his wife will serve as den mother for a new den. New members of Den Three who attended the banquet for a get-acquainted evening were Albert Menendez and son, Mike, and Mrs. Leonard Ashby and son, Ricky.

Area Tests Made in Air Pollution Study

Recent studies in the Quad-City area to determine the severity of hydrogen sulphide in the air have been made in connection with the program of the Interstate Air Pollution Study which is attempting to find ways of solving the air pollution problem in the metropolitan area.

J. W. Sadler of the St. Louis offices of the study group said the tests were not made directly by the study committee, but are being made by the air pollution division of the Illinois State Health Department with equipment loaned by the Interstate Air Pollution Organization. The testing equipment has been altered in residential areas to determine varying density of hydrogen sulphide in the air.

Sadler said that hydrogen sulphide has several different sources. The pollutant may come from any operation in which sulphur is reduced, and may also be emitted in sewer gases through leaking sewer pipes, from stagnant pools or from decaying matter.

The Interstate Air Pollution Study was organized in September 1962, as a result of requests to the U. S. Public Health Service.

First Phase Completed

First phase of the program which ended on June 30, 1963, was a brief preliminary study designed to find types of problems needing particular analysis during the more comprehensive second phase of the study. A detailed final report of the second phase findings is expected to be completed by December of this year. Data gathered in various steps of the survey are available to the public.

Data is being analyzed and compiled using the data processing facilities of the U. S. Public Health Service of Cincinnati, Ohio. The equipment used by the study group has been placed on loan to local air pollution agencies, such as in the case of the Quad-City area, and is being used in a continuing air monitoring network.

A completed air pollutant emission inventory survey is currently being studied and compiled into report form for use in development of the air management resource management program plan. It will be part of the final report. A detailed odor survey has been made, laying the groundwork for a possible permanent odor surveillance network. The feasibility of such a network is currently under study.

Dietary Services At Hospital to be Expanded March 9

The Hospital Food Management Co., a division of Automatic Retailers of America, has competitively won a contract to supply St. Elizabeth Hospital with a professionally-trained food manager to supervise but not cater meal production beginning March 9, it was announced today.

Simultaneously, the hospital will expand its dietary services, with its dietician devoting much of her time to consultation with patients.

Goals of the new diet therapy department, which eventually will be located on the fourth floor adjacent to the other therapy departments, will be to guide each patient in terms of his menu, his appetite and his diet. Tips will be given on home cooking techniques to preserve his diet therapy after he is released from the hospital.

Closer liaison with the medical staff is planned, and in the future there will be outpatient classes in diet therapy, it was disclosed.

Dr. SIMS says . . . SAFEGUARD YOUR HEALTH

A PUBLIC SERVICE OF THE ILLINOIS STATE MEDICAL SOCIETY

MONONUCLEOSIS SOUNDS WORSE THAN IT IS

"I'm afraid your child has infectious mononucleosis."

If your doctor pronounces this fearful-sounding diagnosis over your child, don't be overly alarmed. It's not a bad as it sounds. In fact, a diagnosis of infectious mononucleosis (mono for short) can come as a tremendous relief to a doctor, patient and family.

Why?

Kissing Disease

Because mono — often referred to as the "kissing disease" — is usually a mild, self-limiting disease.

A slightly contagious virus infection, it is marked by an increase in the single-nucleated white cells in the blood. These cells invade many organs of the body, chiefly the spleen and lymphoid tissue; however, serious complications are rare.

Although it has occurred in individuals as young as four months, and as old as 65, its most frequent targets range from 15 to 30-year-olds.

Deceptive Symptoms

Diagnosing this disease can be tricky business for a physician, for it is loaded with symptoms common to both minor and serious ailments.

In its mild stage, its common symptoms of extreme fatigue, general mild fever and swollen glands are often mistaken for a common cold, flu or upper respiratory disease.

In its more severe stage, its symptoms of abdominal pain, high fever and infected liver mimic such serious infections as acute appendicitis, infectious hepatitis, scarlet fever and many more.

Prompt Blood Tests

Since mono can imitate serious ailments, it is important that it be diagnosed as soon as possible. And proper diagnosis can only be accomplished through specific laboratory blood tests.

Just how mono should be treated and how long it lasts varies from one individual to another. The usual treatment is immediate bed rest, aspirin and liquids — the same as for a cold.

Immune serums, steroids and drugs of the quinine family are sometimes used in treating more severe cases; however, their overall effectiveness is still held in question.

The infection runs its course from seven to 21 days in most cases, and reaches its peak during the second week. But relapses can occur which may prolong the sickness to more than one month.

Reason For Nickname

"Infectious mononucleosis has been nicknamed the "kissing disease," based on the theory that it takes this intimate form of contact to spread it. Even though it acts like a contagious disease — a bout with it usually gives lasting immunity — deliberate scientific attempts to transmit it have failed.

If mono strikes your teenager or collegiate, don't be overly concerned. . .for it is almost never fatal and seldom carries serious complications.

However, don't neglect it, for it can keep your son or daughter out of circulation for weeks and even months, and play "havoc" with his education plans.

Granite City "Missing The Boat" On Badly Needed Apartments

When a $1.5 million apartment complex, complete with swimming pool and recreation building, was recently proposed as a buffer between Heintzville and the network of railroad tracks west of Wilson Park, it was rejected by a group of residents who claimed there would be excessive traffic and an influx of children that would overburden schools in the area.

Since then, two other apartment developments have been proposed and opposition has arisen to one on Pontoon road and Wabash avenue. Some of those who signed petitions in favor of it are now reported to have changed their minds; they are said to fear "population density."

We believe this objection is equally ill-advised and against their own best interest. Just what are the facts? We checked.

First, Granite City's ordinance, patterned after the national "model" housing act, sets a maximum of 28 multi-level apartment units per acre. The Pontoon and Wabash project provides for 21 units, seven less than the "model" act.

Second, the national average apartment occupancy is 2½ persons, about one-third the average-size family. The latest sizable apartment project built here—at 27th and Center streets—has only 61 persons living in the 32 apartments (a number of the occupants are widows), an average of less than two per unit. Obviously, this is unlikely to generate "excessive traffic" or "overburden a school" or make for a "population density" problem.

Sketches of the three apartment proposals leave no doubt of their attractive appearance; they would be a definite asset to each neighborhood and would enhance the value of surrounding property.

Around $4 million in construction work is here for the taking; it also would pay its full share of local taxes. Surely this would be better than the existing vacant—and often unsightly—lots which depress adjacent property values.

Not only can these neighborhoods benefit, but Granite City needs these apartments badly if it is to continue to grow economically, culturally and professionally. In our 53 years here, there has always been a shortage of rental property; we have a chance now to start catching up.

The alternative is to drive people to other cities, for what builder would go to the trouble and expense of proposing a project in a city where Granite City will turn him down? He knows he will be welcomed with open arms elsewhere.

What then of these vacant lots whose owners, of course, do have rights, too? Will they sell to someone for much less desirable neighborhood purposes?

Weekend Voting If Needed To Attract Larger Turnouts

The first Tuesday after the first Monday in November is the time-honored general election date throughout the United States, having been in effect for the last 120 years. But it has failed to result in enough citizens going to the polls, despite long voting hours and the widespread practice of allowing time off from work.

The first Sunday in November proposal introduced by Senator Dirksen deserves serious study. Fuller participation in the selection of public officials must be achieved, whether it requires balloting Sundays, Saturdays or even both days.

No Backdoor Approach On Assembly Salaries

Should Illinois legislators be paid $6000 or $7500 a year? Whatever the feeling of the General Assembly, the decision should be made directly, rather than by the "backdoor approach" made possible by a new state legal ruling.

The ruling is that while such a pay raise was vetoed in 1963, it was referred to in a general appropriation that was signed. Although there is a precedent that a properly drawn appropriation constitutes law in itself, the legislature ought not to allow the matter to be decided on a technicality, or retroactively (the 1963 date would enable all present representatives and half the senators to be given immediate boosts, since they are now in new terms).

Colorful Scenery—On The Highway

Technicolor highways?

Pity the poor color blind motorist, who already has enough trouble reading traffic lights, what with some communities putting the red light at the bottom and others placing it in the top position on their signals.

Persons interested in esthetic values may be understandably concerned over discussions of creating pavement of vivid hues, but the proposal probably will be hard to stop. An outstanding illustration is an expressway ramp that claimed six lives before being painted bright yellow, and none since.

Since everybody is four-square for traffic safety, it may not be long before there are distinctive color markings for shoulders, sharp curves and other road elements and conditions. But we hope there will be more uniformity than there is in stoplights; it would be confusing in traveling from state to state if one governor—or his wife—preferred turquoise for a particular type of hazard and another chose to "think pink."

New Example Of Mutual Benefits

Extension of the Madison avenue sewer and paving project into the 1900 block is another example of the benefits that accrue to all from a constructive and cooperative approach.

Relocation of the sewer easement on Granite City Steel Co. property will provide more room for expansion of plant facilities. And by going farther north than the original 16th-to-19th streets sewer installation plan, the firm will save the city government $60,000 to $80,000; this was the estimated cost of repairing two faulty sewer sections which now will be bypassed at no cost to taxpayers.

Simultaneously removing old trolley rails in the 1600, 1700 and 1800 blocks, the steel company also has inspired the city to do the same in the 1400 and 1500 blocks, eliminating a traffic hazard responsible for frequent injuries and damage during rainy and icy weather.

U.S. History--The Westward Push

(Last in an historical series prepared by the Daughters of the American Revolution in observance of American History Month—February.)

As the population of our nation grew, pioneers pushed West toward the ultimate goal of "dominion from sea to sea."

Thomas Jefferson had pointed the way to the setting sun by swinging America's biggest real estate deal, the Louisiana Purchase, and by sending his private secretary, Meriwether Lewis, and William Clark exploring over the Rocky Mountains to Oregon.

Better than two years and 4100 miles of travel later, they returned with a wealth of information of the West, its Indians, its rivers, mountains and minerals.

A national monument to Lewis in Tennessee contains his grave and marks the site of the inn on the bandit-ridden old Natchez Trace, where he died in 1809.

Settlement Of Texas

By 1830 there were 30,000 Americans in Texas. Settlements were scattered across the prairies.

Mexico ruled that no further American migration into Texas would be allowed. The rule was not obeyed.

Friction mounted between Mexico and the Texans. On Dec. 5, 1835, the Texans, laid seige to Cos in San Antonio.

The Mexicans were surrounded in the partly ruined mission, The Alamo, and surrendered. The following year, further trouble developed.

Under orders from Gen. Sam Houston, the fortifications were destroyed and the Texans holed up in The Alamo.

Alamo Massacre

On March 6, they were wiped out in hand-to-hand combat with Santa Ana and his band of men. From this battle has come the expression "Remember the Alamo."

Wagon wheels rolling westward grooved deep lines of character upon the face of the West. Fertile farms in Oregon, gold in California, and the Mormon "promised land" in Utah lured the covered wagons on.

A national monument at Scott's Bluff, Neb., and Inscription Rock in El Morro National Park, New Mexico, mark the trails they traveled.

Spanish Mission

Where the word of Spain went, there went the cross.

The armored conquistadores did not find their cities of gold, but the men in rugged brown robes with crosses swinging from their waists located their treasures—"heathens to be converted for the glory of God."

Missions were built in the Southwest. Today the chain of 21 missions in California, begun with the founding of Mission San Diego de Alcala, testifies to the courage and dedication of the Padres.

Most of the missions have been restored as they were originally built.

And so it is—suffering and tragedy, the lure of distance, the ache to discover, the urge to have and to hold, firm faith, the will to preserve, and surpassing love of freedom—all these have molded the pictures in American history.

FEELS MEDICARE WOULD BE FINANCIALLY SOUND

To the Editor:

Hope the storm our letter created has subsided sufficiently to permit us a rebuttal. We are not as eloquent a writer as "Press-Record Reader," but we have the fortitude to write what we think is wrong with the Press-Record. We have lived here for almost 40 years and should know what we are writing about the Press-Record.

We are not asking for bouquets nor do we want to be "citizen of the month," but when we have had enough we speak out.

Regarding medicare, we would like to ask:

If two persons take out life insurance for $50,000 and one dies three months after the policy is in force, the beneficiary receives $50,000 although they have surely probably paid only $50 in premiums. Who is going to pay the $49,950? The insurance company? The other fellow, of course, if he lives long enough.

But hasn't he the great fortune to enjoy many more years of life? Whether they are happy or miserable is beside the point. But when a government wants to do that, of course, it is socialism. This makes no sense.

About the welfare states of Europe, "Press-Record Reader" knows nothing. She is so right in one thing: nothing in this life is free. We add, "Not even death, because that costs you your life."

When you take from one to give to another is charity, not socialism. That's the first time we read such a definition. She must have read that in one of Miss Schlafly's books.

SANITATION CONTRACT A MAJOR ELECTION ISSUE

To the Editor:

It is just about election time again, and the sanitation contract is going to play a big part in this election, as everyone knows.

When our men took care of the garbage, they had to pick up tin cans in one can and garbage loose in another. Now it is all in one can, which makes it much easier to handle.

As for the alleys being clean, please take a look at the alley on 17th between Cleveland and Delmar. There is one pile of cans which has been lying in the alley since before Christmas. On a lot, tin cans are lying all around where they are pitched when people go to burn trash. Anyone can see them. Our city men would have taken a shovel and cleaned them up.

It has been stated how much the city saved. How much did it lose when it sold all of the sanitation trucks?

Why send our tax money across the river? Why not give it to our own businessmen? Don Partney tried to keep all that tax money at home instead of sending it across the river.

THROAT CULTURE PROGRAM conducted by senior biology students at Granite City high school to detect strep throat cases among school children and prevent rheumatic fever. Being shown the techniques involved by Grover Norwood (center), biology teacher, are, left to right—Judy Kerch, Janice Hinckley, David Bradford, Mike Range (standing) and Maybell Lee.

Seniors May Register For SIU Summer Term

High school seniors who plan to enter the 1965 summer quarter at Southern Illinois University, Carbondale, may register for classes between April 12 and June 4.

Leslie J. Chamberlin, SIU admissions director, said such students should initiate action now by informing his office of their intent to enter Southern and requesting an admission packet. They will receive further information by return mail.

Beginning June 21 and extending to Aug. 29, the summer quarter will be the second full-length summer term at SIU. The university completed its transition to a complete year-round, four quarter schedule last year.

Chamberlin said SIU is now taking applications for admission for both the summer and fall quarters. High school seniors may be admitted on the basis of seven semesters of work, with the final semester's grade to be submitted after graduation.

The Carbondale campus admissions office is open from 8 a.m. to noon and 1 to 5 p.m. Mondays through Fridays and 8:30 a.m. to noon Saturdays for students who wish to visit the campus. No appointment is necessary.

Throat Culture Program Conducted by Students

Advanced biology students at Granite City high school are conducting a throat culture program for the Granite City school district.

Its purpose is to detect streptococcal sore throat which may cause rheumatic fever with consequent heart damage. Other infections are reported if they are shown.

Students with sore throats are taught to report to the school nurse in their buildings. The nurse streaks a throat swab across a section of the agar plate, then sends the plate to the high school center where they are processed.

Grover Norwood, biology instructor whose students are conducting the work, said after an initial strep throat infection, there is a latent period of one to several weeks. During this time, the patient has apparently recovered. However, if the initial infection goes untreated or is inadequately treated, symptoms of rheumatic fever begin to appear.

Symptoms of Illness

These include fever, joint pains, a skin rash, nodules on the back of the head, neck and on the hands. St. Vitus dance, or chorea, sometimes appears. Lesser symptoms include nosebleed.

Treatment of the initial sore throat is with penicillin, erythromycin or other antibiotics. Prompt treatment of the original throat infection will prevent rheumatic fever. It is the fourth most common cause of death and disability in children.

If reports are "positive, Mrs. Ruth Mitchell, the high school nurse, contacts the nurse in the proper building. The parents are then called, and the student is referred to his physician with a printed form reporting the findings.

Pupil Readmitted

After treatment, the physician signs the form, and on disappearance of symptoms, the student is readmitted to school. Occasionally, parents who have discovered the value of the program will request that other members of the family be given a throat culture, Norwood said.

Now and then, a "carrier", who shows no symptoms himself, is detected by making cultures of an entire room in which there has been an outbreak of strep throats.

Materials for the program are obtained from the county Heart Association through Harold Thomas of the special education division of the board of education, local representative of the Heart Association chapter.

10-100 Cases Weekly

The number of cases processed weekly varies from 10 to a hundred or more, Norwood said, and the incidence of strep throats has dropped considerably from what it was when the program was first started.

Both parents and teachers feel confident that a large number of hearts have been spared, and several local physicians have encouraged this method of detecting dangerous strep throat infections and of alerting residents of the importance of early detection and prompt treatments of such infections, the teacher said.

The throat culture program also is an educational tool. Senior students who are planning nursing and medical careers, and who are enrolled in advanced biology, carefully observe the work and participate in certain phases of it.

Supplementary films and printed materials are included in the study of the nature and prevention of rheumatic fever and its complications.

A series of adult evening classes has been organized by Southern Illinois University for persons interested in advancing their knowledge and skills in various fields.

Listed on Honor Roll

Miss Carol Bradish, daughter of Mr. and Mrs. Joe Bradish, 2204 East 20th street, is listed on the first semester honor roll at Millikin University, Decatur. A sophomore, she is majoring in English and is a graduate of Granite City high school.

506 Public Aid Recipients Enrolled in Adult Classes

Granite City, Madison and Venice school districts are among seven Madison county districts which are operating adult education classes for 506 students who are on public aid rolls, according to a report by Wilbur R. L. Trimpe, county superintendent of schools.

Of the total county enrollment, Venice has 90 students enrolled, Madison, 73, and Granite City, 67. Enrollment in most classes is made up of persons who did not have an opportunity to attend school when younger. They are now furthering their education to prepare for better job opportunities.

The program is divided into four divisions: basic literacy classes, and General Education Development with an enrollment of 244 in 14 classes. Both courses are designed to prepare students for a high school equivalency certificate. Twenty-three are enrolled in office occupation classes and six are registered in general office practice.

Dale Culpen Recovering

Dale Culpen, 18, a son of Mrs. Vada Olson, 2830 East 25th street, is recovering at Scott Air Force Base Hospital from major surgery which he underwent the past week. His sister, Pfc. Marta Culpen, who was called home due to his illness left early this week for Fort George Meade, Md., where she is stationed in the WACS.

ADDED SALES AREA, the Colonial Room, at the Bellemore Village shopping center Tri-City Grocery for an additional 400 square feet for the dairy and beverage departments. Manager William Ogden is standing in the new area designed to resemble a brick courtyard.

Vicar Bishop Parteny Will Visit Here

Vicar Bishop Parteny of New York will celebrate with the Holy Trinity Bulgarian Eastern Orthodox Church vesper service Saturday, Holy Liturgy Sunday, and will be honor guest at a pre-Lenten dinner after Holy Liturgy.

Vesper services will be held at 7 p.m. with Very Rev. Peter Stambojiev and guest priest Father Tehodosius and his choir from the Nativity of Virgin Mary taking part. Following this there will be a reception for Vicar Bishop Parteny on his first visit to the church.

On Sunday Holy Liturgy will be at 10 a.m. after which a dinner will be served at the Madison recreation center. The junior choir under the direction of Mrs. Dorothy Beck and Miss Pat Dineff, will present a short program. There will also be dancing with the tamburitzas. The church is at 1300 Grand avenue, Madison.

New Colonial Room At Tri-City Store

To provide additional space for the dairy and beverage departments, more than 400 square feet of floor space has been added to the produce department of the Bellemore Village store of the Tri-City Grocery Co. A new 21-foot dairy case has been added in the newly-completed Colonial room.

The case is the latest 1965 style magic curtain type in which cool air flows vertically from top to bottom keeping foods at exact temperature constantly. Products are more easily accessible in this style case.

The new Colonial room has been done in early American motif, with old-style brick walls and graystone ledge. The floor has been refinished in vinyl tile to resemble a brick courtyard. By moving some of the dairy department and all beverages into this new room, more space is available in the main section of the store to accommodate additional grocery shelving.

Store officials said the new Colonial room is the first step in an overall remodeling program for the supermarket, which is to be completed in March.

JC's Pancake Brunch Will be Sunday at 'Y'

The Granite City Jaycees completed plans this week for a pancake and sausage brunch to be held Sunday from 8 a.m. to 1 p.m. in the YMCA auditorium.

Proceeds will be used toward defraying costs of purchasing a bus, which was later presented by the Jaycees to the Granite City Senior Citizens Club, Alvin Barnes III, project chairman, reports. He added that any additional profits made from the brunch will be jointly shared by the senior citizens and the Jaycees.

Donations are $1 for adults and 75 cents for children under 12 years. Tickets may be obtained in advance from any Jaycee or Senior Citizen club member, Barnes said, or purchased at the door. During the brunch, an eight-transistor radio will be awarded, he said.

A number of Jayceettes will assist with the project, Barnes reported, with his wife, Marcella, heading the ladies' division. Joseph Hassler and Michael Day were appointed to supervise the kitchen crew.

Mrs. Past Recovering

Mrs. Norman Past, 2300 Missouri avenue, is recovering at St. Elizabeth Hospital from major surgery which she underwent Monday. She has been hospitalized since Feb. 7.

Mrs. Loyd Hospitalized

Mrs. Doris Loyd of Peters Station, Route Four, Edwardsville, formerly of Granite City, is a patient at St. Elizabeth's Hospital, Belleville.

*HERE'S HOW CHRYSLER'S ENGINE AND DRIVE TRAIN WARRANTY CONTINUES TO PROTECT YOU. Chrysler Corporation warrants all of the following vital parts of this car for 50,000 miles or five years after delivery to the original purchaser, whichever comes first, during which time any such parts that prove defective in materials and workmanship will be replaced or repaired at a Chrysler Motors Corporation Authorized Dealer's place of business without charge for such parts or labor: engine block, head and internal parts, transmission case and internal parts (excepting manual clutch), torque converter, drive shaft, universal joints, rear axle and differential, and rear wheel bearings. REQUIRED MAINTENANCE: The following maintenance services are required under the warranty—change engine oil every 3 months or 4,000 miles whichever comes first; replace oil filter every second oil change; clean carburetor air filter every 6 months and replace it every 2 years; and every 6 months furnish evidence of this required service to a Chrysler Motors Corporation Authorized Dealer and request him to certify receipt of such evidence and your car's mileage.

The Bel Air has even more expensive-looking touches to offer inside and out, along with its Full Coil suspension Jet-smooth ride.

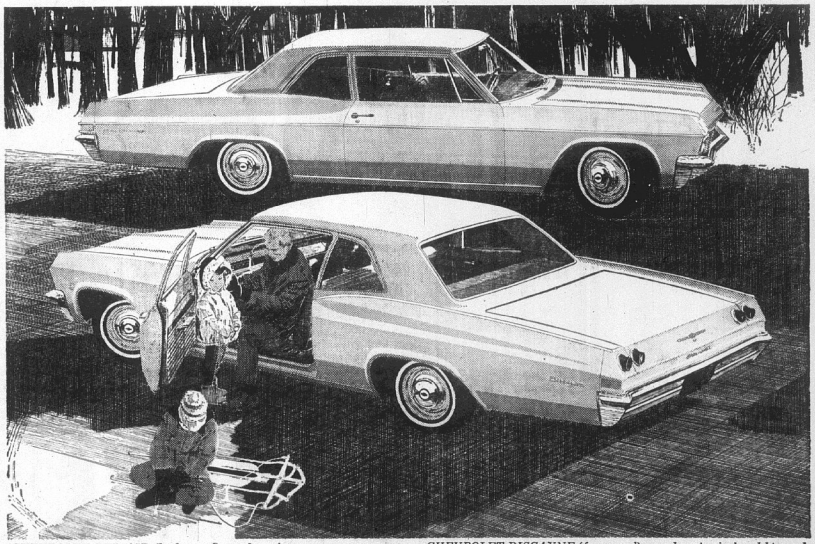

That's why we're so anxious to have you come to our showroom and price the model you like best.

And we want you to also discover how either a Bel Air or Biscayne can save you even more money after you buy it. For that Turbo-Thrift Six has been engineered to make it easy on gas and economical to service. It's quick to do everything but cost you money.

TUBERCULIN JET SPRAY gun is used instead of a needle for painless administration of the Tuberculin test program in local schools by Jerry Braden (seated) of the state department of public health. He is shown with a group of Stallings school first graders —Eddie Kennerly, Elaine Ross, Becky Schoolfield, John Hand and George Meyer. In the background is Mrs. Marjorie Hilker, a school nurse.

New Jet Spray Tuberculin Testing Completed in GC

A new method of tuberculin testing proved successful in Granite City's public and parochial schools and was completed this week.

The testing was administered by a staff from the Illinois Department of Public Health, division of TB control, using the new tuberculin jet spray gun instead of needles.

Reading of the results is carried out 72 hours after the testing, and youngsters with positive reaction are then referred for chest x-rays.

Harold Thomas, special education director for the school district, said 3688 youngsters of the public and parochial schools participated. The team visited each school to give the tests to first, fifth and ninth graders.

Before the testing was started, explanations were given to the Tri-City Medical Society members, Thomas said. It gained their approval as well as endorsement of the county medical group and County School Supt. Wilbur Tvimpe.

The new jet spray gun method, it was noted, is less painful than the needle and is easier and faster to operate.

Conduct Charge Filed

Charles Keck, 17, of 2661 East 28th street, was arrested at 3:50 p.m. Monday at his home on a disorderly conduct charge.
